Web developer skilled in React, Next.js, and the MERN stack. I focus on building clean, responsive interfaces and developing efficient backends. Passionate about delivering high-quality web applications that stand out.

EDUCATION

Bachelor in Information Management (BIM)

KIST International College

Kamalpokhari, Kathmandu

-Completed

+2 Computer Science

Golden Gate Intl College

Battisputali, Kathmandu

-Completed

PROJECTS

1. Website For Express Tech

Developed a responsive website using RTK query and tailwind CSS for Ui design. Focused on seamless data flow, component reusability, and creating an intuitive user interface with optimized performance. I used ReactJs for frontend and ExpressJS and MongoDB for backend.

Features:

- Add/Remove Service
- Contact
- Admin Panel

Links:

Vercel : <https://express-t-ech.vercel.app/>

2. Pawstore using RTK Query

Developed a website using RTK query and tailwind CSS for UI design. Focused on seamless data flow, component reusability, and creating an intuitive user interface with optimized performance. I used ReactJs for frontend and ExpressJS and MongoDB for backend.

Features:

- Add Breeds
- Add Accessories
- Admin Panel
- Delete and Edit breeds/accessories
- Contact Page
- Blog Page
- Login and Register User

Links:

Github: <https://github.com/rubeshresthaa/ProjectFront> / <https://github.com/rubeshresthaa/ProjectBack>

3. Blog CRUD Project

- Developed a CRUD Blog project using NextJS and MongoDB

Features:

- Add Blog
- About Page
- Admin Panel

Links:

Github: <https://github.com/rubeshresthaa/NextJs>

Vercel: <https://next-js-six-roan.vercel.app/>

4. Todo List

- Developed a TodoList using ReactJS

Features:

- Add Todo
- Delete Todo
- We can click the task after completion

Links:

GitHub: <https://github.com/rubeshresthaa/Todo-List>

Vercel: <https://todo-list-kappa-lake.vercel.app/>

5. Clone Of CodePen

Built a CodePen clone using ReactJS, enabling users to write and preview HTML, CSS, and JavaScript code in real time. Implemented features like syntax highlighting, live preview, and separate code editors, and efficient state management.

Features:

- Write HTML Code
- We can style the code using CSS
- Write Code in Javascript
- Result of the given Code

GitHub: <https://github.com/rubeshresthaa/Codepen>

Vercel: <https://codepen-teal.vercel.app/>

6. Project based on Redux

Developed a responsive website using Redux for state management and Material Tailwind for modern UI design. Focused on seamless data flow, component reusability, and creating an intuitive user interface with optimized performance. I used ReactJs for frontend and ExpressJS and MongoDB for backend.

Features:

- Admin Panel
- Edit Products
- Delete Products
- Add Products

- Login and Register user

GitHub: <https://github.com/rubeshresthaa/RTK>

TRAINING/CERTIFICATIONS

Mern Stack Training 2024 *Mind Risers Consortium*

Completed comprehensive training in MERN stack development, gaining hands-on experience with MongoDB, Express.js, ReactJS, and Node.js. Worked on building full-stack web applications, focusing on RESTful APIs, dynamic front-end development, and efficient database management.

Certificate links:

<https://www.mindrisers.com.np/certificate/validate/MR-81002-MS>

SKILLS :**Hard Skills:**

- HTML, CSS & Javascript
- ReactJS and NextJS
- ExpressJS and MongoDB
- Fundamentals of Digital Marketing

Soft Skills:

Decision Making
Observation
Fast Learner
Multi Tasking

LANGUAGE :

English, Nepali, others.

Activities and Interest:

- Travelling
- Sports and Games
- Working Out
- Music
